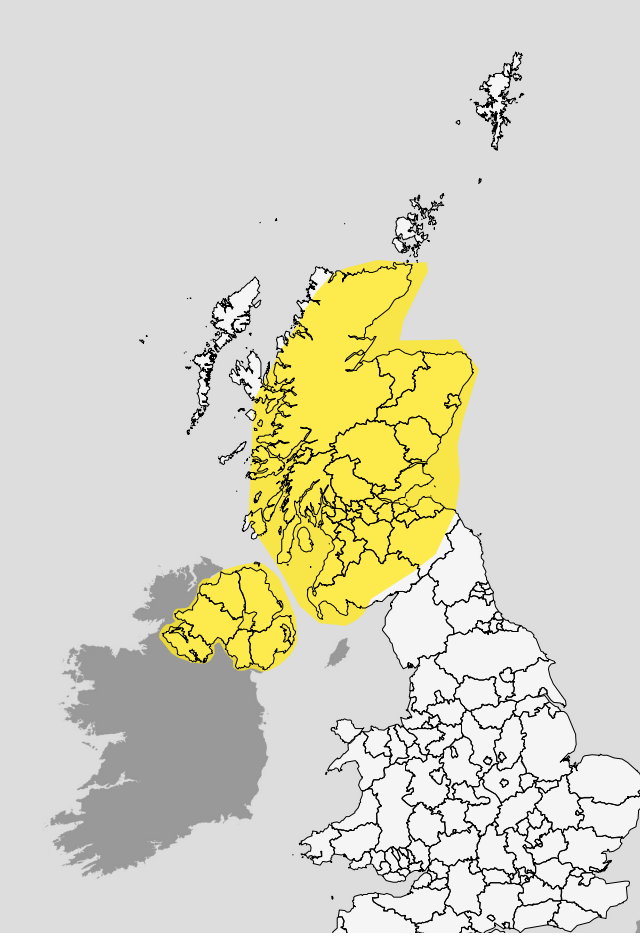
Yellow warning
Thunderstorm

Between
12:00 Sun 14 Aug 2022 and
06:00 Mon 15 Aug 2022



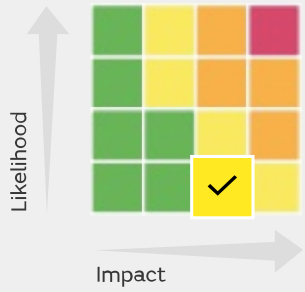
While some places stay dry, hit-and-miss thunderstorms will develop Sunday and Sunday night, and may bring disruption in places.

What to expect

- There is a small chance that homes and businesses could be flooded quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- There is a slight chance that power cuts could occur and other services to some homes and businesses could be lost

Further details

During Sunday afternoon, cloudier conditions and areas of rain are expected to develop across parts of Northern Ireland and Scotland. A few places seem likely to see heavy downpours and thunderstorms, which could bring up to around 50 mm of rain falling in 2-3 hours leading to some disruption. These may last through the night in places. Hail and frequent lightning are potential additional hazards.



Very low likelihood of medium impacts
